

User Persona

Employee (End User)

"I want to report my issues easily and get timely support so that I can work without disruptions."

Name : Namburi Sriya Ram
Team ID : Individual
Date : 6th September 2026

 Journey Stages	 1. Awareness Realize the need	 2. Request Find and submit	 3. Assignment Request is processed	 4. Resolution Issue is resolved	 5. Completion Use and provide feedback
 Steps What does the user do at this stage?	- Faces a workplace or technical issue (e.g., system not working, access issue) - Looks for a way to report it	- Logs in to the Employee Center portal - Opens the issue form (Record Producer) - Selects category and subcategory - Fills in the required details and submits the request	- Issue record is created in ServiceNow - Request is assigned to the appropriate support group - Receives acknowledgment or status update	- Support team investigates the issue - Updates the issue with progress, comments and resolution details - Changes the state (e.g., In Progress → Resolved)	- Issue is resolved and closed - Uses the system/software without issues - Provides feedback if needed
 Interactions Who or what do they interact with?	- Colleagues - Emails/announcements - Employee Center portal	- Employee Center (Service Portal) - Record Producer - UI Policies (form validation) - Dependent Choices	- ServiceNow (custom issue table) - Support/Admin team - Notifications (email/in-app)	- Support team - ServiceNow (issue record) - Internal communication (comments/updates) Notifications	- ServiceNow (issue record) - Notification (resolution) - Feedback option (if available)
 Goals & Motivations What is the user trying to achieve?	- Find a quick and easy way to report the issue - Ensure the issue is reported to the right team	- Submit a clear and accurate issue request - Provide all necessary details - Complete the process quickly	- Ensure the issue is assigned to the right team - Get confirmation that the request is received	- Get the issue resolved as soon as possible - Receive clear updates on the progress	- Ensure the issue is fully resolved - Get back to work without interruptions - Share feedback to improve the service
 Positive Moments What do they find enjoyable or satisfying?	Learns that issues can be reported through a single portal	- Simple and guided form - Relevant subcategories displayed based on category	- Quick acknowledgment - Ability to track the status in the portal	- Timely resolution - Notifications when the issue is resolved	- Issue is resolved successfully - Easy option to provide feedback
 Negative Moments What do they find frustrating or confusing?	- Not sure where to report the issue - Unclear which category to choose	- Confusion in selecting the correct category/subcategory - Error messages for missing or incorrect information	- Delay in assignment - No updates for some time	- Resolution takes longer than expected - Lack of communication from the support team	- If the issue is not fully resolved - Need to reopen the issue
 Areas of Opportunity How can we make this better?	- Better communication and awareness about the Employee Center - Clear guidelines and FAQs	- Improve category descriptions - Provide examples/tooltips - Make form more user-friendly	- Set SLAs for response time - Send automated status notifications	- Faster resolution through proper assignment - Regular status updates - Improved communication with users	- Enable feedback/rating option - Follow-up to ensure user satisfaction - Provide knowledge articles to prevent similar issues
 Emotional Journey How do they feel throughout the journey?	 Concerned	 Hopeful	 Waiting	 Frustrated	 Satisfied

"A simple and efficient issue reporting process helps me focus on my work and stay productive."
